## EDUCATION

*Forth Valley College, 2010 - 2012*

### **HND Visual Communication**

Studied a range of visual communication elements including typography, print design, web design and digital imaging.

## SKILLS

I've been using computers in one form or another for most of my life and as a result I'm right at home with most digital interfaces.

I'm fluent with both Mac and Windows, and am familiar with most standard applications (Office, web browsers, email etc).

Adobe applications are nothing new to me, and I'm particularly handy with the core three: Photoshop, Illustrator and InDesign.

I also take a great interest in frontend web design, and have been teaching myself HTML and CSS, and have taken a keen interest responsive design. I mainly work with text editors like Brackets.

Print and screen are both familiar to me – I know my CMYK from my RGB, I can tell the difference between bitmap and vector graphics, and I can tell you why printing at 72PPI is a bad idea.
